## How to arrange emergency assistance

- 1 Major emergencies which could result in serious injury to the public or damage to property should be immediately advised to the supply company and/or the public emergency services. The policy does not provide cover for any repairs, damage or other loss resulting from gas leaks.
- 2 Before requesting **emergency assistance**, check that the circumstances are covered by **your** policy. Remember this is not a maintenance policy and does not cover routine maintenance in **your home**.
- 3 If **your emergency** is boiler related **you** should have **your** boiler make and model and service details ready when **you** contact the **helpline**. Remember **you** must produce evidence to **our approved engineer**, that the boiler has been serviced to the manufacturers specifications within the last twelve months for primary heating system cover to apply. Primary heating system cover must also be shown as included on **your schedule**.
- 4 Telephone the **helpline** within 12 hours of the **emergency** occurring and provide details of the assistance required. All requests for **emergency assistance** must be made through the **helpline**. Do not make any arrangements yourself without prior authorisation from the **helpline**, if **you** do **we** will not reimburse any costs **you** may incur. All calls are recorded.
- 5 The **helpline** will appoint an **approved engineer** to attend **your home**, provided that this is not precluded by adverse weather conditions, industrial disputes (official or otherwise), failure of the public transport system, including the road and railway networks and repairs thereto and any other circumstances preventing access to the **home** or otherwise making the provision of **emergency assistance** impossible. The **helpline** and the **approved engineer** will have reasonable discretion as to when and how work is undertaken and this will be based on the details provided by **you**.
- 6 The **approved engineer** will charge all costs covered by the insurance directly to **us**. **You** will be asked to pay the cost of:
  - a) Call-out charges if there is no-one at **home** when the **engineer** arrives;
  - b) Work in excess of the **claim limit**;
  - c) Fitting replacement parts or components of a superior specification than the original at **your** request.

## Pay on use

Should an **emergency** arise that is not included under this Home Emergency cover, where possible, **we** can arrange for an **approved engineer** to attend **your home** but **you will** be responsible for all costs involved. The use of this service does not constitute a claim under **your** policy.

## Replacement of parts or components

**We** reserve the right to use non genuine replacement parts supplied from third parties in addition to those parts that may be sourced from the manufacturer or their approved suppliers. **We** are not responsible for any loss, damage or inconvenience resulting from a delay in obtaining or receiving delivery from the relevant supplier of any spares. When replacement parts are received, **we** will contact **you** to arrange a suitable time slot for the **engineer** to attend. **You** should make sure that the **engineer** can get reasonable access to carry out the repair. If **we** cannot get a replacement part needed to carry out a repair our liability will be limited to a temporary repair to make the **emergency** safe.
